X Action requires an appropriation increase to the ____ Capital Budget or X Operating Budget.

X Action provides increased revenue for appropriation increase.

Background/Supporting Information Attached

The department is requesting to contract with the Minnesota Department of Health for the expansion of the federally funded Nurse-Family Partnership (NFP) program in coordination with the Minnesota Visiting Nurse Agency (MVNA). These funds will be used for continued training, support, and evaluation of MVNA staff on the nationally recognized and outcome based NFP program for intensive public health nursing home visiting services for at-risk families. The goal of the family home visiting program is to foster healthy beginnings, improve pregnancy outcomes, promote school readiness, prevent child abuse and neglect, reduce juvenile delinquency, promote positive parenting and resiliency in children, and promote family health and economic self-sufficiency for children and families.
